# A healthy partnership

At Kaiser Permanente, your personal physician is the biggest advocate for your health. You choose your own doctor, and that doctor coordinates your care with specialists as needed.

## Choose your doctor – and change anytime

Connecting you with a doctor who suits your needs is our top priority. At [kp.org/searchdoctors](https://kp.org/searchdoctors), you can find information on a wide range of top-notch physicians, including their education, credentials, and specialties.

### You can choose your doctor from:

- Adult medicine/internal medicine
- Family medicine
- Pediatrics/family medicine (for children up to 18)

Select one doctor for your whole family or a different doctor for each family member. You can also change your doctor anytime.

## Quality care starts with quality doctors

No matter which physician you choose, your health is in highly capable hands. Our doctors come from top medical schools, and many teach at world-renowned universities.

Since we hire and train our own doctors, they are all held to the same quality standards and committed to the same vision: making lives better by being your trusted partners in total health.

## Culturally responsive care for diverse communities

We believe nothing should stand between you and total health. That's why we provide care that's sensitive to the various ethnicities, cultural values, and languages of our members. To do this, we:

- Focus on hiring doctors and staff who speak more than one language.
- Offer interpretation services in 150+ spoken and signed languages.
- Train our providers in how to connect with, and care for, people of all backgrounds.

Through our culturally responsive care programs, we've been able to improve health outcomes among diverse populations for conditions like high blood pressure, diabetes, and colon cancer.\*

## Coordinated and connected care

Your doctor, nurses, and other specialists work together as a team, sharing information to give you the care you need. They're connected to each other, and to you, through your electronic health record. They know your medical history, test results, medications, and allergies. So you get personalized care.

\* We improved blood pressure control in our Black/African American members, raised colon cancer screening rates in our Hispanic/Latino members, and improved blood sugar control (HbA1c levels under 9%) in our Hispanic/Latino and Black/African American members with diabetes. Self-reported race and ethnicity data are captured in KP HealthConnect, and HEDIS® measures are updated quarterly in the interregional CORE Datamart.

# Great care, great results

Get the care you need to get and stay healthy. From preventive screenings to care for serious conditions, we've got you covered. And your care is backed by cutting-edge research and advanced medical technology.

## Preventive care to keep you healthy

We believe prevention plays a vital role in health care. That's why we offer so many resources to help you stay healthy and happy, and avoid getting sick. (For examples, see "Healthy resources" on page 6.)

To catch problems early, we offer preventive screenings, routine appointments, and more. Your electronic health record plays a key role in this, tracking the services you get and reminding your doctor when you're due for care.

## Comprehensive care when you need it

Along with our commitment to prevention, we're here for you if you get sick. You get great doctors, state-of-the-art facilities, and the latest technology – all combined to help you recover quickly.

If you have a condition like diabetes or heart disease, we'll work with you to manage it using proven best practices and treatment guidelines. Our well-rounded approach supports you physically and emotionally to help you continue living life to the fullest.

## Advanced research working for you

We're always looking to improve care for our members. Through our ongoing medical research, we discover new and better ways to prevent and treat illness.

### To make this work possible, we have:

- More than 4,500 studies underway.
- 7 regional research centers and 1 national center.
- More than 1,200 research staff members.

As one of the nation's largest research programs, we conduct and share our learnings from groundbreaking studies and clinical trials. Our areas of focus span a wide range of health issues, including cancer, heart disease, diabetes, childhood obesity, and autism. Learn more at [share.kp.org/research](http://share.kp.org/research).

## Satisfied members, year after year

For the 9th straight year, our health plan was named "Highest in Member Satisfaction" among Colorado Commercial Health Plans by J.D. Power and Associates. Now in its 10th year, the study measures satisfaction among members of 135 health plans in 18 regions throughout the United States by examining 6 key factors: coverage and benefits; provider choice; information and communication; claims processing; cost; and customer service.\*

\* Kaiser Foundation Health Plans, Inc. received the highest numerical score among commercial health plans in Colorado in the J.D. Power 2008-2016 U.S. Member Health Plan Studies. 2016 survey based on 31,867 responses from 4 plans measuring experiences and perceptions of members surveyed October-December 2015.
