- Fertility preservation
- Tissue cryopreservation and storage
- Intrauterine insemination
- Ovulation induction (OI)

Visit [kpivf.com](https://www.kpivf.com) for information on how to get started.

Your plan benefits

- Traditional HMO Plan copay \$40/visit
- 1 IVF cycle per lifetime (no dollar limit)*
- 6 months of tissue storage*

Intracytoplasmic sperm injection (ICSI) is only covered when deemed medically indicated by a plan Reproductive Endocrinology and Infertility physician.

Pre-implantation genetic testing is not covered under the IVF or infertility benefits.

For more complete coverage details, refer to the Kaiser Permanente Evidence of Coverage plan documents.

*Effective January 1, 2021. Services are covered if they are part of an active cycle to create pregnancy.

Many Kaiser Permanente members have coverage for the diagnosis and treatment of infertility, and some members have coverage for in vitro fertilization (IVF) procedures if IVF is listed as a covered benefit in the *Evidence of Coverage* for their Kaiser Permanente health benefit plans.

Effective January 1, 2020, certain fertility preservation services are a covered benefit for some plans under California law. For these plans, when a covered treatment may directly or indirectly cause iatrogenic infertility, standard fertility preservation services are a covered service distinct from covered infertility treatment services. "Iatrogenic infertility" means infertility caused directly or indirectly by surgery, chemotherapy, radiation, or other medical treatment.

Except where covered under your health plan benefits, the services described here are provided on a fee-for-service basis. Clinical services are provided by providers or contractors of The Permanente Medical Group, Inc., and Kaiser Foundation Hospitals may receive compensation for providing facilities and/or other support in connection with these services. For specific information about your covered health plan benefits, please see your *Evidence of Coverage*.
