VIRGINIA CANCER SPECIALISTS

2019 TOP DOCTORS

Northern Virginia is home to an army of oncologists and other doctors focused on fighting the often aggressive disease. From a brand new medical campus to the latest in experimental treatments to the importance of bedside manner, here's everything you should know about battling cancer.

METHODOLOGY

Along with asking all the doctors in Northern Virginia who, in their expert opinion, should be dubbed a Top Doctor, we took the process a step further by working with local hospitals and the Kaiser Permanente/Mid-Atlantic Permanente Medical Group of Northern Virginia to put together panels of head doctors to discriminatively look at those with privileges at their hospital. Each panel nominated doctors based on all the internal tools they are privy to: internal evaluations, patient reviews and overall quality of care. Although some Top Doctor winners choose to advertise in the magazine, doctors cannot pay to be included on the list. The listing and the advertising sections are separate entities.
